Commento This KVP train probably was redispatched from Goerlitz to Loebau or

Zittau as KVP postso

Comment. The trains carried KVP units from Gotha to the Weisswasser troop training grounds and vice versa. The KVP units from Gotha belong to Infantry Division Erfurt. As the artillery units of this division conducted firing practice with live ammunition at the Zuelsdorf troop training grounds northeast of Torgau in March and April 1954, KVP units engaged in training at the Weisswasser troop training grounds probably only included infantry and tank units of Infantry Division Erfurt.

25X1

Comments Similar KVP shipments have been observed since early May 1954. They

probably consist of detached KVP personnel.
